

ENGAGE

Guided journeys for *the weeks between visits.*

Digital journeys approved by your care team that carry your education, reminders, and next steps to patients and families, step by step from diagnosis through recovery. Engagement is tracked at every step, so your team knows who needs a nudge. No app, no login, no new FTEs.

What Engage delivers, for each audience

- **For the patient.** Education, reminders, and next steps arriving step by step, diagnosis through recovery, at the moments they matter.
- **For the care team.** Engagement tracked at every step, so staff time goes to the patients who are drifting.
- **For the family.** A caregiver version travels alongside the patient's, so families see the same plan and carry the same expectations.
- **In your brand.** White-labeled and built from your existing content, alongside the folder and the call, never in place of them.

Five ways an orbit is issued

From the workflow you already run

- 01 Ordered from the EHR.** Like any other order; activation and engagement return to the dashboard.
- 02 Issued from a patient list.** Bulk issue, with activation tracked per patient.
- 03 QR code or text message.** A poster, a packet insert, or a text, in one step.
- 04 On-site registration.** Enrolled in the room in under a minute, no portal account.
- 05 Nightly flat file.** Orbits issued automatically each night, no interface project.
- 06 No new FTEs.** Whichever route, nothing added to anyone's day.

PLATFORM EVIDENCE, FROM THE CONTROLLED TRIAL

Patients arrived better prepared, called less, and came back less

+65%

understanding of the plan of care

–53%

calls to the nursing line

–41%

readmissions among patients carrying an orbit

+22%

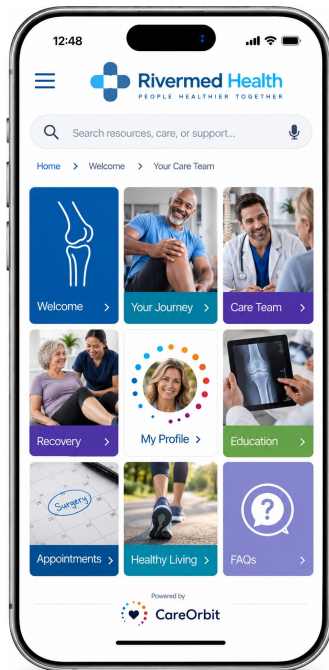

patient satisfaction

9 in 10

navigated their journey better

CareOrbit controlled clinical trial, Siteman Cancer Center.

Pick one journey. *Prove it in a quarter.*

The orbit home screen as your patients see it, in your practice's brand and voice. Opens in the phone's browser, with no app download required.

STEP ONE: PICK THE JOURNEY THAT IS COSTING YOU

Readmissions, cancellations, no-shows, or call volume: bring the journey and the education your team already trusts.

- **The journey.** The pathway that is costing you: readmissions, cancellations, no-shows, or call volume.
- **Your content.** The education your team already trusts. Engage delivers your material, not generic content.
- **The destination.** Where results land: a care team dashboard, the EHR, or a program report.
- **Your brand.** White-labeled in your voice, as if you built it yourself.

STEP TWO: WE BUILD IT FROM YOUR MATERIAL

Engage carries your education, reminders, and next steps to patients and families, step by step from diagnosis through recovery. Active, engaging pages sequenced to the clinical pathway, not a static library of PDFs and webpages. We build it from your material for your team's review.

STEP THREE: WE MEASURE AGAINST YOUR BASELINE

Live in about 90 days. We deliver engagement, completion, and the operational numbers you named, against your baseline, inside a quarter.

ZERO DISRUPTION

Nothing added to anyone's day

- **No new FTEs.** Nothing added to anyone's day.
- **Live in a quarter.** From kickoff to first patient.
- **No risk, no lock-in.** And no disruption to your offices.
- **White-label.** Your brand, your voice.
- **HIPAA, SOC 2, HITRUST.** Documentation ready for review.
- **EHR-friendly.** A scheduled flat file, or nothing at all.

FOR THE CARE TEAM

You can finally see it

- Who opened their orbit and who never did, by patient, on the care team dashboard
- Patients not engaging with their care material flagged, before it becomes a poor outcome
- Engagement and completion rollups by service line and by site, exportable for your committee

Engagement
Index Score
What is this?

91

Every patient carries an Engagement Index Score your team can act on.

The next move: 20 minutes discussing *your* engagement gaps and *our* platform.

No demo script, no obligation. We hear which moments are costing your practice the most, and give you a brief look at the platform.
